Profile

Since completing a degree in Graphic Design I've benefited from two years of print design experience and over four years designing for online, including time spent freelancing and designing at agencies. I am a fast learner and a creative designer, always keen to conceptualise, experiment and progress. I've been published in a typographic book ('Kapital K' - featured in Grafik magazine), also exhibited at the Dutch Design Week, and have been invited to show my screen prints at various events in 2009.

As well as design, my interests include music, art, reading, travel, sport, cooking, screen printing and photography.

Professional history

Agency work + other freelance October 2008 - present

I spent some time helping out at leading digital agency Reading Room with work for pitches to the likes of the Bank of England and Royal Mail and have since busied myself with various freelance and contracting roles including work for Design Buzz (a small digital agency), branding and designing mainly for the web. Personal clients include Let It Yourself (DIY property rental), for whom I created a logo and full web and interface design, Villa Albina (high-end Thai vila, now with a high-end website to match) and 'Belvoir!', for whom I art-direct, design and put together a monthly properties magazine.

PartyGaming (Interactive Designer) May 2005 - October '08

Responsibilities included targeting of the audience and market evaluation, conceptualising and defining the project and leading work on visuals. I created promotional graphics, developed brands, designed flagship websites, built HTML with CSS styling and animated Flash banners and pages.

For over a year I led all design for PartyBets.com and was responsible for the new user interface re-design and forthcoming website re-launch.

Maritime Sales (Graphic Designer) March 2003 - May '05

A multinational sales company, 'Maritime' offered a wide range of design work including product packaging, branding and corporate identity, Flash websites/animation, point of sale, flyers, brochures, advertisements and presentations.

Self initiated

One of my career's earliest projects was to set up SBG (Small Business Graphic) Design, which offered discount creative and bespoke design solutions to fledgling businesses. Clients I met and designed for included a web-casting company, a drum 'n' bass MC, a well-respected international asbestos survey organisation (ARL Group) and a charitable trust.

I've also undertaken a number of non-commercial art and design projects including, foremost, an array of screen printed artwork for which I'm currently putting together an art and design blog from which to sell them (Bozo Unit).

Qualifications

2003 BA (Hons) degree: Graphic Design - 2/1

Southampton Institute (now Southampton Solent University)

2000 BTEC Diploma: Foundation Studies in Art & Design

Kent Institute of Art & Design (Maidstone)
