Painting/drawing	/////
Photography	/////
Screen printing	/////

Since completing a degree in Graphic Design I've benefited from two years of print design experience, four years designing for online, and almost another two spent freelancing across both web and print with occasional agency work. I'm a fast learner and a creative designer, always keen to conceptualise, experiment and progress. I've been published in a typographic book ('Kapital K'—featured in Grafik magazine), also exhibited at the Dutch Design Week, and have been invited to show my screen printed posters at various events.

As well as design, my interests include music, art, literature, travel, sport, cooking, screen printing and photography.

Professional history

FREELANCE & CONTRACTS OCTOBER 2008–PRESENT

Having spent some time helping out at leading digital agency Reading Room working on pitches to the likes of the Bank of England and Royal Mail, I have since busied myself with various freelance and contracting roles. This includes work for Design Buzz (a small digital agency), several months spent working with high-profile fashion brands such as Kickers, Ted Baker and Gio Goi at Pentland Group + other branding/design jobs attained via word of mouth. Personal clients include Let It Yourself (DIY property rental), for whom I created a logo and full web and interface design, Villa Albina (high-end Thai villa, now with an attractive website to match), branding and screen printed stationary for Kava Kava coffees, with further promotional imagery and also 'Belvoir!', for whom I designed and directed a properties magazine (very enjoyable!).

PARTYGAMING (INTERACTIVE DESIGNER) MAY 2005–OCTOBER '08

Responsibilities included targeting of the audience and market evaluation, conceptualising and defining the project and leading work on visuals. I created promotional graphics, developed brands, designed flagship websites, built HTML with CSS styling and animated Flash banners and pages. For over a year I led all design for PartyBets.com and created the design and information architecture for their user interface.

MARITIME SALES (GRAPHIC DESIGNER) MARCH 2003–MAY '05

A multinational sales company, Maritime' offered a wide range of design work including product packaging, branding and corporate identity, Flash websites/animation, point of sale, flyers, brochures, advertisements and presentations.

SELF INITIATED

One of my career's earliest projects was to set up SBG (Small Business Graphic) Design, which offered discount creative and bespoke design solutions to fledgling businesses. Clients I met and designed for included a web-casting company, a drum 'n' bass MC, a well-respected international asbestos survey organisation and a charitable trust.

I've also undertaken a number of non-commercial art and design projects including, foremost, an array of screen printed artwork and also successfully answering several international open calls.

QUALIFICATIONS

2003 BA (Hons) degree: Graphic Design—RESULT 2/1
Southampton Institute (now Southampton Solent University)

2000 BTEC Diploma: Foundation Studies in Art & Design
